linkedin.com/in/renuka-sanikommu   github.com/renukareddy8

Profile Summary

Enthusiastic and results-driven Computer Science undergraduate with hands-on experience in full-stack web development and machine learning. Strong foundation in software engineering with a published deep learning research paper. Passionate about building efficient solutions.

Skills

Languages:	Python
Web Technologies:	Full-Stack,Machine Learning
Tools:	VS Code,GitHub
Soft Skills:	Communication, Teamwork, Time Management, Leadership

Education

Vignan University, Guntur *2022–2026*
B.Tech in Computer Science and Engineering

Sri Chaitanya Junior College, Guntur *2020–2022*
Intermediate Education

NRI's Indian Springs, Guntur *2019–2020*
SSC

Projects

Vignan University Bus Tracker & Management System *2025 – 2025*
Full-Stack Developer

- Built a full-stack bus tracking web app using React.js, Node.js, and MongoDB.
- Integrated real-time GPS tracking and notifications via Socket.io.
- Designed a secure admin dashboard with JWT-based authentication and role control.
- Developed a responsive Material-UI interface with interactive Leaflet maps.
- Deployed production-ready system using optimized single-port configuration.

Predicting Employee Attrition *2024 – 2024*
Researcher

- Researched employee attrition prediction using machine learning models.
- Applied Random Forest with SMOTE, achieving 98.3% accuracy.

Certifications

- Google Cloud: Generative AI – 24 Badges
- NPTEL: E-Business, Leadership and Team Effectiveness - Elite
- ICSCNA 2024: Research Paper Presentation
- Cisco: CCNA – Cisco Certified Network Associate
- Smart India Internal Hackathon 2025

Achievements

- Developed a real-time bus tracking and management system used by students and faculty.
- Published high-impact research on employee attrition prediction using ML.

Extracurricular Activities & Hobbies

Dancing, Photography, Sports

Languages

- **English**: Fluent
- **Telugu**: Native
- **Hindi**: Intermediate
