Summary

Highly motivated and enthusiastic individual with a strong passion for coding and problem-solving. Proficient in multiple programming languages with a solid foundation in computer science principles. Completed online courses and tutorials to enhance technical skills and practical knowledge. Eager to apply my abilities in real-world projects while continuously learning and growing as a developer.

Education

2022 – Present	Bachelor of Technology, Vignan University	(GPA: 7.76/10)
2021	Class 12 – BIEAP	(807/1000)
2019	Class 10 – BSEAP	(576/600)

Projects

Rotten Food Classification Environment: - Python (Stack Ensemble Learning), Google Colab

Role: Programmer

Description:

Developed a food image classification model to detect fresh vs. rotten items using HOG and LBP for feature extraction, and SOM for dimensionality reduction. Built a stacked ensemble with boosting-based base learners and ANN/SVM as meta learners to enhance accuracy.

Certifications

GEN AI	Certified by L4G
Python Essentials	Certified by Cisco
Hackathon	Certificate of Participation

Technical Skills

Front-End	HTML, CSS
Programming Languages	Python, C, Java (Basics)
Database	MySQL

Management Skills

- Adaptability
- Communication Skills
- Self-Motivated
- Team Player

Achievements

- Secured First Prize in “Code Hunt” conducted at VFSTR University.
- Awarded Preliminary English Test Certificate from Cambridge University.
