Career Objective

Final-year B.Tech CSE student seeking an AI Engineer Intern / Entry-Level role, with strong interest in Python, Machine Learning, and AI-driven application development. Passionate about learning LLMs, building real-world solutions, and working in fast-paced startup environments with a strong growth mindset.

Education

Vignan's Foundation for Science, Technology and Research, Guntur

B.Tech in Computer Science & Engineering — *CGPA: 6.6* 2022 – Present

Bhashyam Junior College, Guntur

Higher Secondary (Class XII , BIEAP) — *CGPA: 6.8* 2020 – 2022

Sri Chaitanya School, Guntur

Secondary (Class X, STATE) — *CGPA: 9.9* 2019 – 2020

Technical Skills

Languages: Python, C, Java (Basics)

Web Backend: HTML, CSS, Node.js, Express.js(Basics)

Databases: MySQL

Tools & Platforms: Git, GitHub, VS Code

Projects

- **Thermal-Driven Predictive Maintenance Copilot** (*Agentic AI*)
 - Developed an explainable AI predictive maintenance system using thermal image analysis, RAG, and a local LLM for fault diagnosis.
 - Implemented safety guardrails with human-in-the-loop validation and built a Streamlit dashboard for anomaly and risk visualization.
- **Chronic Kidney Disease Prediction Based On ML Algorithms (Machine Learning)**
 - Developed a machine learning model using Python to predict Chronic Kidney Disease by performing data preprocessing, feature selection, and model training on patient health data.
 - Evaluated model performance using classification metrics such as accuracy to support early diagnosis and decision-making.

Soft Skills

- Strong analytical and logical thinking
- Fast learner with strong curiosity for AI and new technologies

Areas of Interest

- Machine Learning & Artificial Intelligence
- LLM-based Applications and AI Tools

Certifications

- Certified in Preliminary English Test Examination (Cambridge University, 2023)
- NPTEL – E-Business, Leadership and Team Effectiveness
