Professional Summary

Results-driven Software Development professional with strong analytical and problem-solving skills. Experienced in developing scalable solutions, building predictive models, and delivering data-driven insights.

Technical Skills

- Tableau
- Docker
- REST APIs
- Machine Learning
- Git
- Java
- Pandas
- Django

Professional Experience

Software Developer Intern at CodeCraft (5 months) – Designed REST APIs and integrated backend services.

Key Projects

- Sales Forecasting model using ARIMA and LSTM for time series prediction.
- Customer Churn Prediction model using Logistic Regression and Random Forest with 94% accuracy.

Certifications

- Oracle Java Certification
- Microsoft Certified: Azure Fundamentals

Achievements

- Published research paper on AI-based predictive modeling.
- Published research paper on AI-based predictive modeling.

Education

MCA – 2024 – CGPA: 8.9/10
