Professional Summary

Results-driven Software Development professional with strong analytical and problem-solving skills. Experienced in developing scalable solutions, building predictive models, and delivering data-driven insights.

Technical Skills

- REST APIs
- Tableau
- TensorFlow
- Deep Learning
- Docker
- Microservices
- Pandas
- NumPy

Professional Experience

Machine Learning Intern at InnovateAI (4 months) – Developed predictive models and optimized hyperparameters.

Key Projects

- Customer Churn Prediction model using Logistic Regression and Random Forest with 94% accuracy.
- RESTful API development using Flask and Docker deployment on AWS.

Certifications

- Oracle Java Certification
- Oracle Java Certification

Achievements

- Winner of University Hackathon 2023.
- Led a team of 5 developers in capstone project.

Education

B.Tech in Computer Science Engineering – 2022 – CGPA: 8.6/10
