Professional Summary

Results-driven Machine Learning professional with strong analytical and problem-solving skills. Experienced in developing scalable solutions, building predictive models, and delivering data-driven insights.

Technical Skills

- Docker
- Microservices
- TensorFlow
- Git
- REST APIs
- AWS
- Power BI
- NLP

Professional Experience

Software Developer Intern at CodeCraft (5 months) – Designed REST APIs and integrated backend services.

Key Projects

- Customer Churn Prediction model using Logistic Regression and Random Forest with 94% accuracy.
- Sales Forecasting model using ARIMA and LSTM for time series prediction.

Certifications

- IBM Machine Learning Professional Certificate
- Google Data Analytics Professional Certificate

Achievements

- Winner of University Hackathon 2023.
- Led a team of 5 developers in capstone project.

Education

MCA – 2024 – CGPA: 8.9/10
