Professional Summary

Detail-oriented ML Engineer with experience in building scalable systems, developing predictive models, and delivering data-driven solutions.

Technical Skills

- Power BI
- REST APIs
- Django
- Scikit-learn
- Deep Learning
- Python
- TensorFlow
- Tableau

Professional Experience

ML Engineer Intern – Trained predictive models and performed hyperparameter tuning.

Key Projects

- Developed Fraud Detection model using Random Forest achieving 96% accuracy.
- Created Sales Forecasting model using LSTM and ARIMA.

Certifications

- Microsoft Azure Data Fundamentals
- AWS Certified Solutions Architect

Achievements

- Top 3 finalist in National Hackathon.
- Published AI research paper in IEEE conference.

Education

B.Tech in Information Technology – 2022 – CGPA: 8.7/10
