Professional Summary

Detail-oriented Data Analyst with experience in building scalable systems, developing predictive models, and delivering data-driven solutions.

Technical Skills

- NumPy
- Python
- Java
- Machine Learning
- Docker
- SQL
- MongoDB
- NLP

Professional Experience

ML Engineer Intern – Trained predictive models and performed hyperparameter tuning.

Key Projects

- Developed Fraud Detection model using Random Forest achieving 96% accuracy.
- Created Sales Forecasting model using LSTM and ARIMA.

Certifications

- AWS Certified Solutions Architect
- IBM Data Science Professional Certificate

Achievements

- Awarded Best Intern for technical excellence.
- Solved 500+ problems on competitive coding platforms.

Education

M.Tech in Data Science – 2024 – CGPA: 9.0/10
