Career Objective

Motivated and results-driven Computer Science undergraduate with strong proficiency in Java and full-stack web development using the MERN stack (MongoDB, Express.js, React.js, Node.js). Experienced in solving algorithmic problems and building dynamic, scalable web applications. Solid understanding of object-oriented programming, data structures, and database concepts. Comfortable working in collaborative environments using Git. Eager to apply engineering principles and technical skills in real-world software projects through an internship opportunity.

Education

Bachelor of Technology in Computer Science

Vignan's Foundation for Science, Technology and Research, Vadlamudi

Percentage: 82%

Expected Graduation: 2026

Intermediate (12th)

Narayana Junior College, Guntur

Percentage: 87%

Year of Passing: 2022

SSC (10th)

Kennedy High School, Guntur

Percentage: 98%

Year of Passing: 2020

Projects

CSE Project Management System (MERN Stack): [\[GitHub\]](#)

Designed and deployed a scalable full-stack project management system for the CSE department at Vignan's Foundation, streamlining workflows for 600+ students and faculty. Featured secure, session-based authentication, **RESTful APIs**, and role-specific dashboards for 2,000+ users. Improved access control, eliminating unauthorized access incidents. Built using **MongoDB**, **Express.js**, **React.js**, and **Node.js**, and deployed via **Render**. **Agile development** process with **Git**-based collaboration.

Personalized Product Recommendation System: [\[GitHub\]](#)

Built a distributed **machine learning**-based recommendation system using transaction and behavioral data. Applied **collaborative filtering** and **ranking algorithms** to boost **MAP@K** accuracy to 91%. Performed data cleaning, **feature engineering**, and EDA. Deployed in a simulated production environment with real-time inputs. Stack: **Python (Pandas, NumPy, Scikit-learn)**, **Jupyter Notebook**, **Matplotlib**. Can be scaled to support e-commerce applications.

Research Publications

Shaik Sameena, "Product Recommendation System using Machine Learning Techniques", ICCP-CI 2024 – ITM Web of Conferences, 2025.

Experience

Web Development Intern – Krutanic Solutions (2023):

Contributed to client-facing web platforms using JavaScript and React.js. Designed and implemented reusable UI components. Collaborated using Git and Agile sprints.

Web Development and Designing Intern – Oasis Infobyte (2025):

Developed dynamic dashboards and responsive landing pages. Focused on optimizing UX through modern layout design. Used React.js, CSS Flexbox/Grid, and Git for versioning.

Technical Skills

Programming Languages: C, Java, HTML, CSS, JavaScript, SQL

Frameworks/Tools: MongoDB, Express.js, React.js, Node.js (MERN Stack), Git, Vercel, Render

Database: DBMS Concepts, SQL (MySQL)

Skills: Data Structures and Algorithms, Scalable Web Applications, Problem-Solving, Team Collaboration, Communication

Certifications & Achievements

Preliminary English Test (PET) – Cambridge University (2023)

Best Paper Award – ICCP-CI 2024

Participant – National Hackathons and Ideathons (2023–2024)

Certificate of Appreciation – Organizer of 24-hour overnight tech event

Recognized for Outstanding Coordination – College Technical Fests

Academic Activities

Co-ordinator – Mahotsav Cultural Fest (2023)

Organized 24-hour overnight event featuring hackathon, coding, code hunt, quiz and poster presentations

Conducted innovation and tech challenges during campus-wide technical events

Personal Information

Date of Birth: 25-06-2004

Languages Known: English, Hindi, Telugu

Hobbies: Listening to Music, Travelling, Photography, Learning new things, DIY projects

Address: Flat No: 501, Opp. Fair Look Beauty Parlor, Shop Employees Colony, RTC Colony, Guntur
